1

Would You Like To:

- Reduce the chances that skill shortages will seriously impact your organization's performance?
- Collaborate more effectively with others in your firm on critical talent issues
- Think more creatively about solutions for costly skills gaps
- Make better decisions about talent in an increasingly competitive environment?

© D.W. DeLong 2016

2

My Premise

Every leader can **boost** their company's **performance** by taking **six steps** to **reduce** the impact of skills gaps.

© D.W. DeLong 2016

3

Agenda

- **Where Do You Fit in This Story?**
- **Six Critical Success Factors For Building a Skilled Workforce in a Changing Talent Environment**
- *What Will You Do Differently?*

© D.W. DeLong 2016

4

Characteristics of Conference Participants

- **Range of Industries – life sciences, health care providers, energy, construction, insurance**
- **Roles – compliance, quality, training, professional development, IT, HR**
- **Size – global vs. regional**
- **Compliance focus varies: corp-level vs. factory floor**
- **Training & talent mgt systems – mature vs. new**
- **Different products**

© D.W. DeLong 2016

5

Themes I Heard From You!

How do we:

- **Deal with different talent management challenges:**
 - (1) **lack TMgt infrastructure processes or culture to support it**
 - (2) **functional challenges – depts inadequate TM processes**
 - (3) **personal talent challenges – lack career path**
- **Consider Context? Diversified global vs small co. Address talent in Enterprise vs functional group?**
- **Deal with no one-size-fits-all. Functions have different needs from LMS & training.**

© D.W. DeLong 2016

6

More Themes I Heard From You! *How do we:*

- **Link our learning & devel strategy directly to building talent needed to drive performance? Vs. Seeing TM as improving capabilities of systems administrators**
- **Address compliance & quality issues to bring new products to market faster in foreign markets?**
- **Continue to improve business performance in a highly regulated environment?**
- **How to develop more uniform talent in learning systems admin group?**

© D.W. DeLong 2016

7

Exercise: **Making Sense of Talent Challenges**

- Question: **What does successful “talent management” mean to you?**
- How are your answers similar or different to others?

© D.W. DeLong 2016

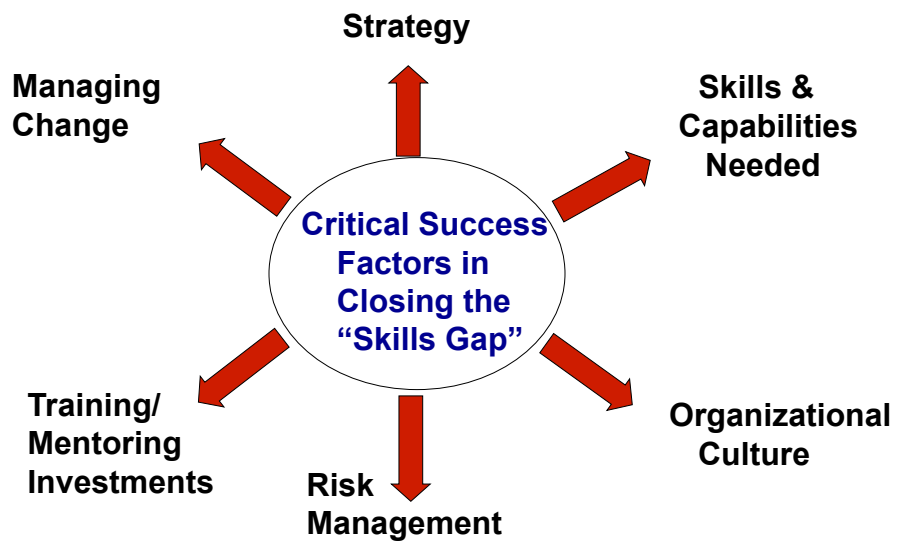

8

Discussion

© D.W. DeLong 2016

9

Defining “Successful” Talent Management

© D.W. DeLong 2016

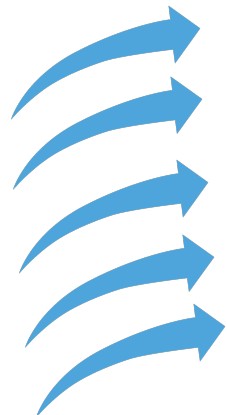

10

Respect Strategic Context of Skills Gaps

© D.W. DeLong 2016

11

Macro Trends Change Strategic Importance of Workforce

- 
- Aging demographics
 - Work more technical, complex
 - Recruiting/hiring process
 - Changing values
 - Competitors investing

© D.W. DeLong 2016

12

Percentage Change in U.S. Labor Force Participation by Age: Projected 2012-22

In the United States, the percentage of workers 55+ is expected to increase by 29% between 2012 and 2022, whereas the percentage of workers ages 25-54 will grow by only 2 percent. The forecasted percentage of growth for workers age 65+ is much higher (74%) than for any other age category.

Source: Horrigan, M.W. (2014, June). Labor force participation: Trends and projections, a focus on older workers.

© D.W. DeLong 2016

Industries Struggling to Find *Qualified* Workers

- Trucking
- Health Care
- Logistics
- Tool & Die
- Public utilities
- Religious workers
- Rail transportation
- Construction
- Financial services
- State & federal govt
- Sign industry
- Funeral industry
- Rural states – Maine
- Boiler manufacturers
- Hydraulics industry
- Manufacturing distribution
- Accounting

© D.W. DeLong 2016

14

There Isn't ONE Talent Mgt, Workforce Development, or Skills Gap Problem!

© D.W. DeLong 2016

15

Albert Einstein Said:

“The problems that exist in the world today cannot be solved by the level of thinking that created them.”

© D.W. DeLong 2016

16

If Your Learning & Development Strategy Is Ideally Effective...

6 Keys to Closing
Skills Gaps That
Can Kill Your
Performance

© D.W. DeLong 2016

17

**#1: Focus on How
Technology Is Changing
Critical Workplace Skills**

© D.W. DeLong 2016

18

Technology *Dramatically* Transforming Employment

- **Advances in automation, robotics, big data, improved analytics transform or eliminate many jobs**

“There’s never been a better time to be a worker with special skills or the right education, because these people can use technology to create and capture value. However, there’s never been a worse time to be a worker with only ‘ordinary’ skills and abilities to offer, because computers, robots, and other digital technologies are acquiring these skills and abilities at an extraordinary rate.”

–Brynjolfsson, E., and McAfee, A. **The Second Machine Age**, 2014

Source: “Racing With & Against the Machine,” MacCrory et al., ICIS, Auckland 2014

© D.W. DeLong 2016

19

Technology *Dramatically* Changing Employment (Cont.)

- **Digital technologies improve rapidly but orgs & skills don’t keep pace.**
- **For first time in history productivity/economic growth are disconnected from job growth.**
- **Now in a race between education & technology so worker skills can stay economically viable.**
- **80% of U.S. population had net *decrease* in wealth in last 30 years.**
- **Some experts say 50% of jobs in 10 years don’t exist yet!**

Source: “Race Against the Machine,” Brynjolfsson & McAfee, 2011

© D.W. DeLong 2016

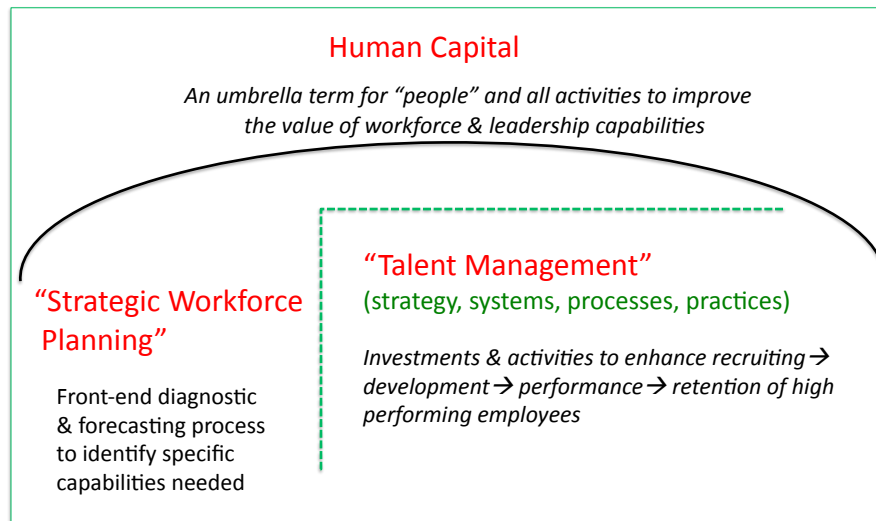

20

Technology Advances: Implications for Your Industry's Talent Pool?

- How are technology advances effecting skill shortages in your business?
- Anticipate skills needed for new jobs & evolving roles; plan transitions for those with obsolete skills
- Where can technology fill in skills gaps?
- Is your state's education system adapting?
Collaboration opportunities?

#2: Watch Your Language!

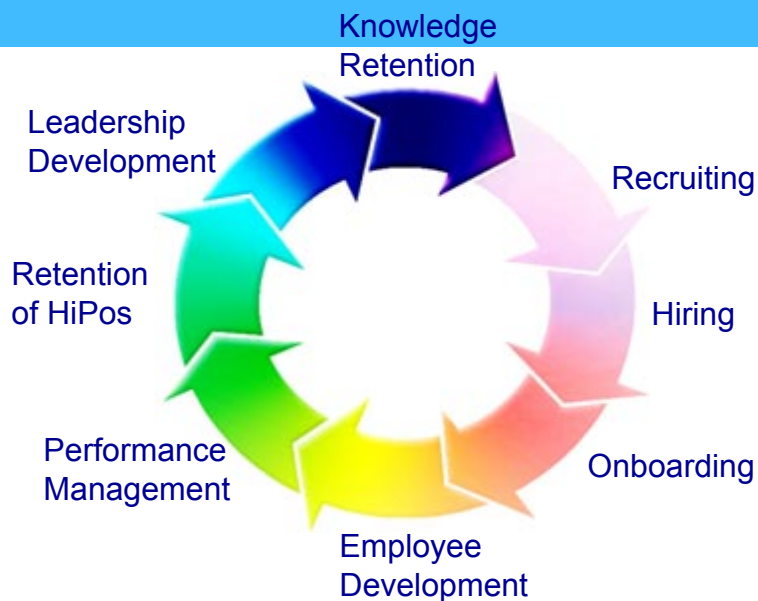

Step #1: Define “Talent Management” For Your Organization

© D.W. DeLong 2016

23

Talent Management “Lifecycle”

© D.W. DeLong 2016

24

7 Talent Problems: That Can Kill Performance

- Bad Hires
- Unproductive New Hires – Poor Onboarding
- Inadequate Employee Development
- Unwanted Turnover
- Poor Performance Management
- Lack of Leadership Development
- Loss of Critical Knowledge

© D.W. DeLong 2016

25

Diagnosing Gaps: Talent Problems vs. Performance

	How Important is This Problem to Our Organization Today? <i>1-No Problem, 7 Critical to Success</i>	How Well Are We Doing On Addressing This Threat? <i>1-Very Poorly 7-Well Under Control</i>
1. Bad Hires		
2. Unproductive New Hires--Poor Onboarding		
3. Inadequate Employee Development		
4. Unwanted Turnover		
5. Poor Performance Management		
6. Inadequate Leadership Development		
7. Loss of Critical Knowledge		

© D.W. DeLong 2016

26

Exercise

- 1. How would you evaluate seriousness of these 7 problem areas in your organization?
(On a scale of 1- no problem to 7-very serious problem)**
- 2. Compare & discuss results with rest of your team.
What are the similarities & differences?**
- 3. Identify top 3 areas where the most work is needed?**

© D.W. DeLong 2016

27

#3: Clarify the Strategic “Big Picture”

© D.W. DeLong 2016

28

How “Knowing” Strategy Can Undermine Performance

- Memorizing Strategy Does No Good
- Midwest Healthcare System...From 30 page Strategy Document: “Strategic objective #2: Develop and retain the best leaders.”
- One Midwest Healthcare Tactic: “Reinforce training and provide tools to strengthen leadership skills.”
- It’s “Strategic Context” – The Big Picture – That Counts!

© D.W. DeLong 2016

29

Key to Alignment: Providing Strategic Context – “The Big Picture”

- What is our unit’s mission or purpose?
- How do we fit in the larger organization’s mission?
- Who are our customers or mkt segments in priority order?
- Who are our competitors & why, in priority order?
- What are our specific products today & which ones need to change to implement our strategy?
- How is our success measured? How might that change?
- Where are we in the product or service cycle?
- How does the work flow?

30

© peermentoring.com, 2008

© D.W. DeLong 2016

How To Use “Big Picture” Questions

- Answer questions *in writing*
- Discuss answers with trusted colleagues & potential leaders
- Meet with your executive team to discuss & clarify their answers
- Make sure key staff can answer questions
- Evaluate talent development investments – how do they support strategic big picture?

© D.W. DeLong 2016

31

#4: Prioritize Talent-Related Risks

© D.W. DeLong 2016

32

Clarify Specific Capabilities at Risk & Prioritize Focus

- You're not going to retain everyone!
- How do you set your priorities now?
- Not all high-potentials are created equal
- Some can be replaced more easily or you have more depth in role
- Who is most critical to sustaining future performance?

© D.W. DeLong 2016

33

Identifying Capabilities at Risk With Knowledge Silo Matrix (KSM)

- Losing wrong people creates serious quality & performance risks
- *Knowledge Solo Matrix*: structured capabilities assessment tool to evaluate talent risks
- Makes current skill base explicit, identifies emerging skills gaps & retention risks

© D.W. DeLong 2016

34

Characteristics of Knowledge Silo Matrix (KSM)

- Silos: specific knowledge domains: tools, processes...
- Rows identify each employee's level of knowledge by domain
- *KSM identifies where knowledge transfer & retention initiatives most needed*

© D.W. DeLong 2016 35

Knowledge Silo Matrix

Team 1

	Elastic Fracture Mech	Seismic	Heat Treats	Pressure	Coatings	Optimization System	Thermal Hydraulics	Cranes and Elevators
Employee A	Green	Green	Green	Green	Green	Green	Green	Green
Employee B	Green	Green	Green	Green	Green	Green	Green	Green
Employee C	Green	Green	Green	Green	Green	Green	Green	Green
Employee D	Green	Green	Green	Green	Green	Green	Green	Green
Employee E	Green	Green	Green	Green	Green	Green	Green	Green
Employee F	Green	Green	Green	Green	Green	Green	Green	Green
Employee G	Green	Green	Green	Green	Green	Green	Green	Green
Employee H	Green	Green	Green	Green	Green	Green	Green	Green

Silos are areas of expertise such as:

- Tools
- Platforms
- Products
- Customers
- Processes
- Regulations
- History
- Physical Locs.
- Job Functions

Key

Can do the work	Green
Chosen to mentor	Purple
Actively Learning	Yellow
Not using this skill	White
Risk	Red

36

© peermentoring.com, 2013 © D.W. DeLong 2016

KSM Allows Management to Ask:

- Demographic profile of each employee who is expert/mentor level?
- How many emps needed in each silo in 2-5 yrs & how many do we have now?
- Cost of training in silo X over time vs. in time crunch?
- Enables frank discussion of acceptable vs. unacceptable risks of turnover & succession planning
- Email me: david@DavidDeLongAssociates.com for copy of spreadsheet

#5: Explore Redesigning Jobs To Fit Available Skill Mix, Talent

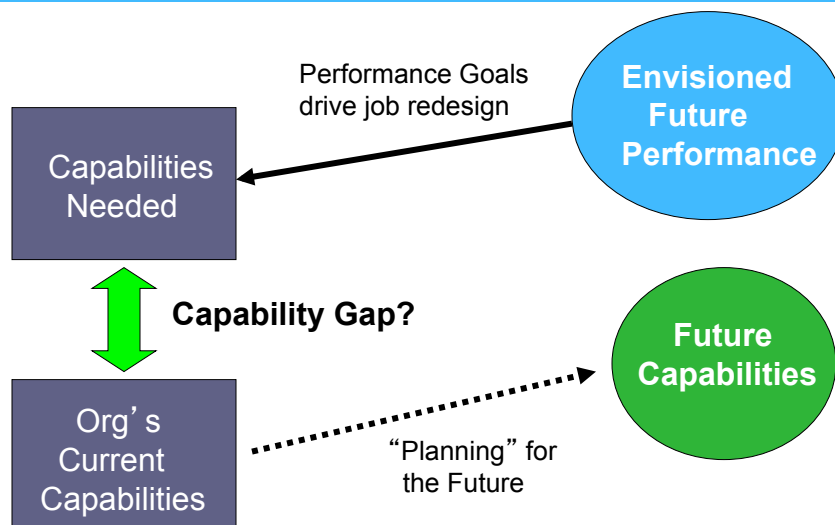

Living With Skills Gaps: Rethinking Job Design

- Explore new sources of talent, *e.g. Pentagon opens combat roles to women*
- Flexible work options are essential for older, younger employees
- Redesign roles to fit available talent, *e.g. AltaMed restructures patient-facing jobs for less skilled CMAs*
- Create & sustain urgency around new job designs

© D.W. DeLong 2016

39

Workforce Redesign Investments Defined By Future Goals

40

© D.W. DeLong 2016

#6: Increase Retention & Development of Millennials

© D.W. DeLong 2016

41

Key to Retaining Millennials: Clarify *Team & Individual Purpose*

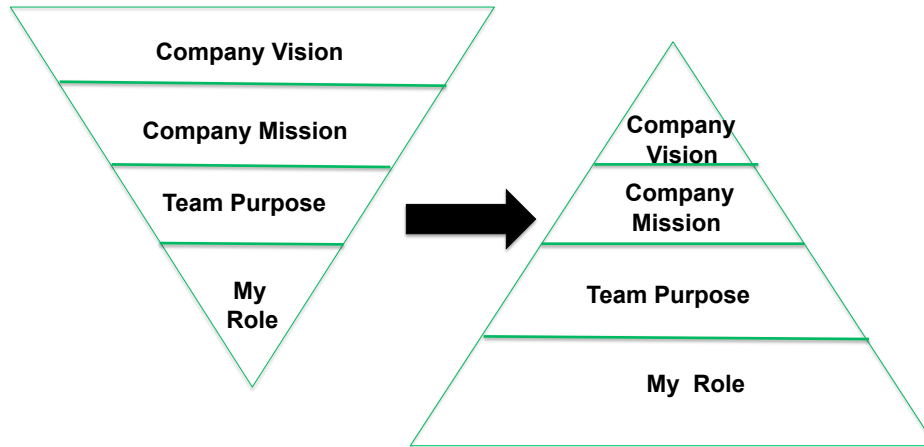

- What does my department, group or team do that's vital to the company?
- If we weren't here, what would happen?
- If we weren't here, what wouldn't happen?
- *How does my job fit into larger whole? This job exists to...*
- *My job is to make sure that: ...*
- *If I wasn't here, this is what wouldn't happen:...*

Adapted from "Millennials and Management", Caraher, 2015

© D.W. DeLong 2016

42

Invert Traditional Pyramid So Employees Understand How Work Fits

Source: "Millennials and Management", Caraher, 2015

© D.W. DeLong 2016

43

How You Can Use These Questions

- Answer questions *in writing* for specific employee's role
- Have employees answer the questions for their job
- Meet to discuss & clarify any gaps in answers
- Identify significant gaps that require added training or allow you to predict tenure more accurately

© D.W. DeLong 2016

44

Another Key to Retaining Millennials: *Maximize Learning Opportunities*

- Cross-train for variety
- Wisconsin mftr uses 3 x 3 approach: each employee trains for 3 job skills/functions; 3 emps could step in job
- Each role has documented levels of proficiency
- Mgt publishes progress, who is proficient in what, creates *competition*
- Reduces monotony, chance to develop new skills, & discover if they like other roles
- *“I learn more. I’m more valuable. And I get paid more!”*

© D.W. DeLong 2016

45

Lessons From The Leading Edge: Managing Millennials Successfully

- Given demographics, firms have *no choice* but to work effectively with next generation
- Oldest Millennials will be 40 in 5 years! Recognize segments of new generation: >2001, >2008, today
- *“Even if you crack the code of managing M’s, that doesn’t mean the problem goes away. Even if you’re doing it well, it’s still hard!”*
- *“Some M’s just don’t appreciate the special care, mentoring & opportunities being provided. Some spend more time shopping for their next car than choosing their next job. Still, you have to stay true to your care and feeding plan.”*

© D.W. DeLong 2016

46

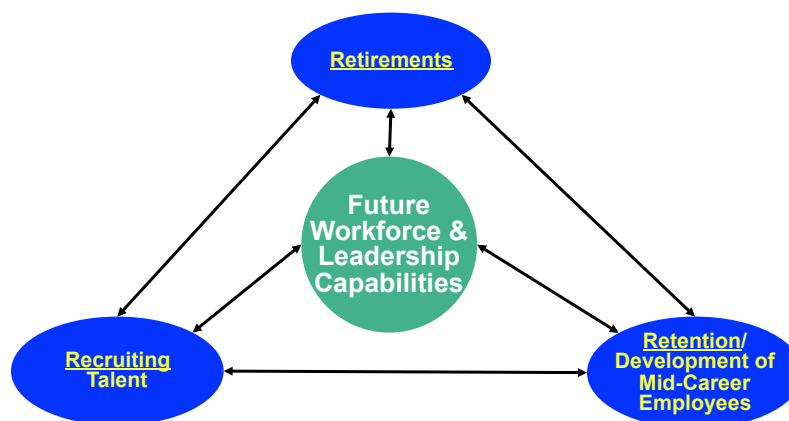

Are You Acting As If:

- Technology isn't going to dramatically change your company & the way you support customers.
- Everybody has same understanding of what "talent management" means
- Understanding the strategic "big picture" isn't critical
- All your talent risks are created equal
- You'll be able to work through talent shortages without job redesign
- If you do nothing the "Millennial problem" will go away

© D.W. DeLong 2016

47

Integrating the 3Rs

Is Your Organization Pursuing an *Integrated* Approach to Developing Tomorrow's Workforce?

© D.W. DeLong 2016

48

Your Challenge: *Improve Performance With Talent Management Solutions*

- Respect **impact of new technologies** on jobs
- **Watch your language** – define “talent management” for your organization!
- Continually clarify **strategic “big picture”**
- **Prioritize** talent-related **risks**
- **Redesign jobs** to accommodate talent supply
- **Create a Millennial-friendly culture & clarify purpose** to increase **employee retention**
- Create & **sustain urgency** to address skills gaps

© D.W. DeLong 2016
